

Tata Group aims to make Gujarat s Dholera the global epicentre of semiconductor excellence : Tata Electronics CEO Randhir Thakur

Speaking at the Gujarat SemiConnect Conference 2024, the CEO stressed on the importance of creating a robust supply chain and establishing a talent pool.

executives from US-based Micron, Tata Group, Taiwanese diplomats, and officials from the governments of India and Gujarat gathered at Gandhinagar's Mahatma Mandir Convention Centre to commence the Gujarat SemiConnect Conference 2024. The officials urged local industries in the state to expand and diversify their product lines to become part of the emerging semiconductor ecosystem.

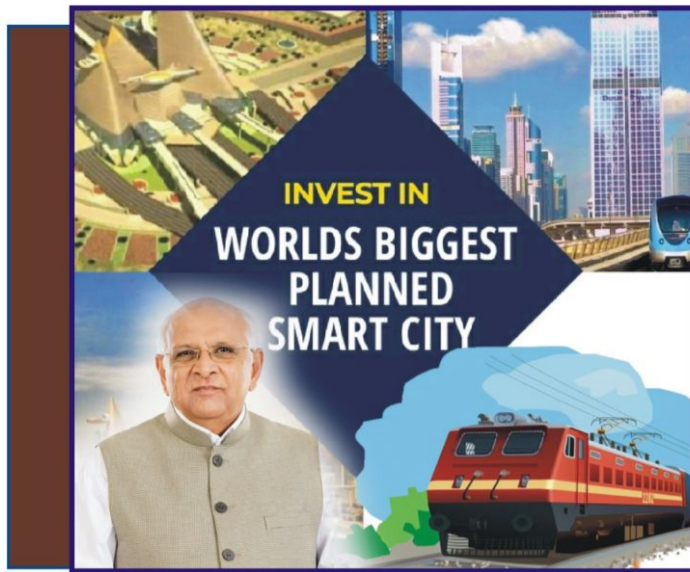

As Micron, Tata Electronics (TEPL) in collaboration with PSMC, Taiwan, and CG Power in collaboration with Renesas, Japan, are all targeting to set up their plants in Sanand and Dholera, support from local suppliers will play a crucial role. "For one Tata electronics semiconductor fabrication facility to run successfully, they will probably need about 300 distinct suppliers in the vicinity," said S Krishnan, secretary, Ministry of electronics and information technology, government of India, at the event.

Earlier this year, the government approved Tata's proposal to build a semiconductor manufacturing facility in Dholera, Gujarat, in partnership with Powerchip Semiconductor Manufacturing Corporation (PSMC). The fab construction is underway and is expected to be ready by 2026. With an investment of Rs 91,000 crore, Tata Electronics aims to build India's first AI-enabled state-of-the-art fab.

It will have a manufacturing capacity of up to 50,000 wafers per month and will include next-generation factory automation capabilities deploying data analytics and machine learning. The semiconductor fab will manufacture chips for applications such as power management ICs, display drivers, microcontrollers (MCUs), and high-performance computing logic, addressing the growing demand in markets such as automotive, computing and data storage, wireless communication, and artificial intelligence.

Recently, N Chandrasekaran, the chairman of Tata Sons, assumed the additional role of chairman

Recently, N Chandrasekaran, the chairman of Tata Sons, assumed the additional role of chairman at Tata Electronics. This transition comes as Tata Electronics is rapidly expanding its semiconductor business. Last year, a former executive from Intel Foundry Services, Randhir Thakur, joined as CEO and MD. For the first time since assuming the role Thakur spoke at a public event, stressing the importance of creating a robust supply chain, establishing a talent pool, and more.

Chip manufacturing will commence soon in Gujarat: CM Patel

Semiconductors, also referred to as integrated circuits or microchips, are an essential component of electronic devices, facilitating communications, military systems, healthcare, computing, transportation, clean energy, and several other applications.

Gujarat has rolled out a dedicated policy for the semiconductor sector and chip manufacturing will commence soon in the state, Chief Minister Bhupendra Patel said on Friday, assuring that his government will provide necessary assistance to the industry. Patel was speaking after inaugurating the daylong 'Gujarat SemiConnect Conference 2024', covering various avenues of the semiconductor sector, at the Mahatma Mandir convention centre here.

Micron Technology, Tata Electronics and CG Power, which are building their semiconductor plants in Gujarat, have collaborated with the state government as knowledge partners for the conference.

Semiconductors, also referred to as integrated circuits or microchips, are an essential component of electronic devices, facilitating communications, military systems, healthcare, computing, transportation, clean energy, and several other applications.

In his address, the chief minister assured those keen to invest in the sector that his government would provide all necessary assistance for chip manufacturing facilities in the state.

"Gujarat is the first Indian state to have implemented a dedicated policy for the semiconductor sector. Within a few months of its implementation in 2020, Micron Technology decided to set up a chip manufacturing plant in Gujarat. We allotted them land at Sanand in just one week," he said.

The CM said Gujarat offers "plug-and-play" facilities at the Dholera Special Investment Region (SIR) for the semiconductor players.

"Taking advantage of this facility, Tata Electronics and its partner, Taiwan's Powerchip Semiconductor Manufacturing Co, are establishing the country's first commercial semiconductor fab (fabrication facility) at Dholera SIR," he said.

He said CG Power is also establishing an OSAT (Outsourced Semiconductor Assembly and Test) facility at Sanand.

"I am confident chip manufacturing will commence soon in Gujarat. We are also working on creating manpower for this sector," the CM said.

In their addresses, top leaders from Micron Technology, Tata Electronics and CG Power stressed the need for the development of infrastructure, rail and road connectivity and other such facilities near Dholera and Sanand where semiconductor units are coming.

Mona Khandhar, principal secretary in the state's Department of Science and Technology, informed the audience that the three chipmakers are on course to start their operations in the state. "Micron has already activated its temporary facilities and its state-of-the-art ATMP (Assembly, Testing, Marking, and Packing) facility worth Rs 22,500 crore is on the way to get commissioned early next year at Sanand," said the senior IAS officer.

Tata Electronics in partnership with PSMC Taiwan is all set to set up semicon facilities worth Rs 91,000 crore at Dholera and will begin operations by 2026, she said.

"CG power in partnership with Renesas, Japan, has geared up to set OSAT facility worth Rs 7,600 crore at Sanand to be commissioned by 2025," she added.

In his address, Gursharan Singh, senior vice president at Micron Technology, stressed the need for robust

CM Shri Bhupendra Patel holds a one-on-one meeting with Shri Randhir Thakur, Tata Electronics CEO and MD

Chief Minister Shri Bhupendra Patel holds a one-on-one meeting with Tata Electronics CEO and MD Shri Randhir Thakur in Gandhinagar. Shri Randhir Thakur is visiting Gujarat to participate in the Gujarat Semiconnect Conference 2024, organized by the state government's Department of Science and Technology at Mahatma Mandir.

During the meeting, Shri Randhir Thakur praised the support Tata Electronics has received from the state government to initiate their production facilities. He informed the Chief Minister about the new plant Tata is establishing, which will create over one lakh direct and indirect employment opportunities.

requested the government's cooperation in establishing residential zones, shopping complexes, and other amenities for their employees at the plant in Dholera SIR. Additionally, he conveyed his readiness to construct a Taiwan Village in the area.

Chief Minister Shri Bhupendra Patel assured that the state government would assist in these matters, with a positive approach. The meeting was attended by Chief Secretary Shri Raj Kumar, Additional Chief Secretary to the CM Shri Pankaj Joshi, Additional Chief Secretary of the Industry Department Shri S.J. Haider, Principal Secretary of Science and Technology Smt. Mona Khandhar, and other senior officials.

TESTIMONIALS

We had a meeting with Mr. Jayveer Vaishnav. The presentation was good. The doubts were cleared properly. We were attended properly throughout the visit. The site was shown to us properly. Even we visited the Dholera SIR as well and the places and plans were explained well. For now, we have booked 2 plots. However, we'll think over and plan the payments as soon as possible.

Hello

We visited Dholera smart city along with your company personal Mr. Jaiivir ji, Mr. Shelesh ji.

Today was rainy day even though visit was very good and appreciable in detailing. Visited your 5000 series land plotting including 470 near WTP and river front in industrial area. We like both 5000 series and 470 area. Yet to discuss in house and make up our mind for further procedure.

Your team was very good cooperative and well behaved. They explained each and everything at length.

We wish them for their dedication towards their assignment.

Dholera metro city ke project 5005 me mene plot No. 368 purchase Kiya h or yha aane se phele mere ko jo bhi doubt the vo SB visit ke tym jaiveer ji ne sab clear kr diye

Bhout hi acha lga visit ke baad 🙏

3:19 pm

I visited the Dholera branch yesterday and the staff member was very kind and knowledgeable and also helped and suggested options. He also planned a tour so that development could be seen at the ground level.
Thanks Team- Dholera Metro City.

WHO WE ARE MEET US!!

M/s. Dholera Metro City Group was incorporated with a objective to create value for the customers by ensuring a sure but steady appreciation and returns for our customers hard earned money. M/s. Dholera Metro City Group is rapidly evolving to become a global provider of premier lifestyles.

Dholera Metro City Group is engaged into the business of developing marvels out of the stone. Our objective is to ensure that each of our customers creates wealth by way of value appreciation of his/her prized possession their own space at Dholera Metro City. Dholera Metro City is an ideal destination for both end-users as well as investors looking for owning their Plot near New International Airport at Dholera Special Investment Region in Delhi Mumbai Industrial Corridor. Sometimes you need to change for the better. And that is exactly why, after spending all our life in real estate, we decided to establish a new distinctive organisation

with a fresh and futuristic approach to the real estate. Dholera Metro City Group simply means more ambitious projects, focused management, next-generation construction quality, futuristic features and much more that exceed your expectations. Welcome to new-age in real estate.

Welcome at Dholera Special Investment Region.

1. Dholera Metro City Group was incorporated in 2010.
2. DMC GROUP was conceived as a professional group to satisfy the needs of the discerning Residential/Industrial/Commercial Investment customers interested in sure returns on their investments.
3. The company endeavors to provide value for money to its customers.
4. Moreover, as a commitment to its stakeholders, The DMC GROUP has incorporated best business practices through business ethics and innovative solutions to achieve world class standards.
5. DMC GROUP has a clear objective of to create value for money for their customers by ensuring a sure but steady appreciation and returns for their customers hard earned money;
