

Modi's dream project to fuel Gujarat's growth! Mumbai-Ahmedabad bullet train, Dholera Solar Park, 2 other mega projects to boost state's overall progress

Gujarat's developmental strides have been fueled by ambitious projects like the Mumbai-Ahmedabad bullet train, the Dholera Solar Park, and the Hybrid Renewable Energy Park in Kutch, symbolising the state's forward-looking vision. Officials anticipate a further boost through the upcoming 10th Gujarat Vibrant Global Summit in Gandhinagar from January 10 to 12. Let us take a look at the major projects which will help in making the Gujarat's growth story.

The expressway that passes through Sarkhej-Pipali-Dholera will enable one to commute the 110 km distance between the two cities in just one and a half hour, roads and buildings minister Anandiben Patel informed the state assembly on Friday.

Speaking on the budgetary demands for roads and buildings department, the minister said the investment region, coming up enroute Dholera, an ancient port city in Gulf of Khambhat, would also get air connectivity through.

Mumbai-Ahmedabad bullet train

The much awaited Mumbai-Ahmedabad bullet train, a high-speed rail project spanning 508 km and valued at Rs 2 lakh crore, is set to complete in August 2026. This is Prime Minister Narendra Modi's dream project, which aims to reduce travel time between Mumbai and Ahmedabad to two hours and seven minutes, with 12 stations along the way. The train, operating at a speed of 320 km/hr, is expected to carry 17,900 passengers daily in each direction, providing a significant boost to industries like cement and steel.

Dholera Solar Park

The Dholera Solar Park, located 80 km from Ahmedabad, is India's largest solar project with a capacity of 5,000 MW. Situated within the Dholera Special Investment Region (SIR), the park spans 11,000 hectares and employs cutting-edge solar technology. Gujarat Chief Minister Bhupendra Patel emphasises the importance of Special Investment Regions, with Dholera SIR being India's largest greenfield industrial investment region.

Tata Group ventures into advanced 14nm chip technology

The 14 nm chip technology offers enhanced efficiency, power, and speed. Tata Group, in collaboration with Powerchip Semiconductor Manufacturing Corporation (PSMC), has commenced the development of 14-nanometer (nm) chip technology. This initiative supplements their existing plans to manufacture 28 nm nodes at their semiconductor fabrication unit in Dholera, Gujarat.

The 14 nm chip technology offers enhanced efficiency, power, and speed, making it ideal for compact electronic devices such as tablets, laptops, and smartphones. Furthermore, both companies are actively advancing indigenous technologies in assembly, testing, marking, and packaging (ATMP) processes.

With a monthly capacity of 50,000 wafers and an annual production of three billion chips, the Dholera facility will cater to various sectors including high-performance computing, electric vehicles (EVs), and consumer electronics. It will serve both commercial and strategic interests, with the first chip anticipated to roll out by the end of 2026.

In a parallel venture, Tata Group is investing Rs 27,000 crore in an ATMP project in Assam. The Dholera facility is projected to create approximately 50,000 employment opportunities, while an additional 20,000-22,000 jobs are expected to emerge from the Assam unit.

Our New Project
DHOLERA METRO CITY - 5008

Residential Plots, Villas & Bungalows

- Minimum Down Payment
- Very easy EMI's Schemes
- NA, NOC, Tittle Clear Plots
- Prime & Strategic Location
- 100% Transparent Policies
- Immediate Sale Deed Registration
- Legally Approved & Completely Documented Project

100% MONEY BACK 30 DAYS GUARANTEE

DHOLERA METRO CITY

Gujarat to become hub for 'globally decisive' sectors, says Amit Shah

In his campaign speech, Amit Shah focuses on the huge investments pouring into Sanand and Dholera. Marketing Gujarat as a state that has witnessed “equitable development and investments” Union Home Minister Amit Shah, while canvassing for BJP’s Ahmedabad East candidate, said Gujarat is headed on the path of becoming a hub for semiconductors, electric vehicles, battery production, and green hydrogen.

He also claimed that Dholera Special Investment Region (SIR), located about 110 kilometres from Ahmedabad, will become an “employment destination” for job-seekers from Ahmedabad. “The policies made under the leadership of Narendra Modi and being continued under CM Bhupendra Patel have translated into equitable development and resulted in attracting investment to each and every district,” said Shah, who himself represents the Gandhinagar Lok Sabha seat, which accounts for a large portion of the fast-developing areas of Ahmedabad and Gandhinagar districts. This includes the automobile manufacturing hubs at Sanand, Gandhinagar North, Kalol, Vejalpur, Sabarmati, Naranpura, and Ghatlodia.

In the last four calendar years between 2020 and 2023, 95 per cent of the foreign direct investment (FDI) flowing to Gujarat has been confined to Ahmedabad and Gandhinagar districts alone. While Gujarat saw \$36,860 million of FDI inflows during this four-year period, Ahmedabad district alone accounted for \$32,592 million (88 per cent of the total FDI inflows), while Gandhinagar district saw an additional \$2,290 million in investments, which is about six per cent of total FDI inflows.

During his speech, Shah also mentioned that Gujarat was heading towards becoming a hub for semiconductors, electric vehicles, battery production, and green hydrogen. “These four sectors will play a decisive role in the global economy. These foundations for these four pillars have been laid in Gujarat,” Shah said without mentioning that the first couple of large semiconductor projects have gone to Sanand and Dholera SIR, which fall in Ahmedabad district. Similarly, battery production and electric vehicle production are largely restricted to Sanand and Hansalpur, which are parts of Ahmedabad district.

Shah said the BJP government was building a rs. 33,000 crore Expressway connecting Ahmedabad and Dholera SIR and has also started work on building the Dholera International Airport. He said new railway lines were also being provided to Sanand and Dholera SIR. “The Dholera SIR will become the employment destination for youngsters in Ahmedabad. Only Dholera SIR will create 10 lakh job opportunities,” said Shah.

DHOLERA METRO CITY - 5008 PLOTS LAYOUT

Plot No. 1 to 70

Rs 9998 Per Sq. Yard, Rs. 1111 Per Sq. Feet

TESTIMONIALS

I visited the Dholera branch yesterday and the staff member was very kind and knowledgeable and also helped and suggested options. He also planned a tour so that development could be seen at the ground level.
Thanks Team- Dholera Metro City.

Feedback (27-05-2024):

Site 5007: Plot no. 74 & 75

We had a meeting with Mr. Jayveer Vaishnav. The presentation was good. The doubts were cleared properly. We were attended properly throughout the visit. The site was shown to us properly. Even we visited the Dholera SIR as well and the places and plans were explained well. For now, we have booked 2 plots. However, we'll think over and plan the payments as soon as possible.

Edited 7:27 pm

I thanks to MS Mani Chanchari who gives a nice presentation, thank you to Mr Rajnikant Jee who go throu to site visit & overall full supported by Mr Manan Kela to purchase of plot at DMC 5005.
